## Purchase a New 6176 Vintage Channel Strip Before December 31st, and We'll Send You a Cheque for \$200!

There are lots of “modern-retro” channel strips out there, but only one that can be considered a true classic – with tube, hand-wired circuitry used to record everyone from Frank Sinatra and Van Halen to Norah Jones and Coldplay.

The multiple award-winning [Universal Audio 6176 Vintage Channel Strip](#) combines the warm, all-tube microphone preamp from UA's 2-610, with the signature FET compression of our 1176LN, to create our flagship “modern classic” channel strip.

Now, between October 1st and December 31st, when you purchase a new 6176, Universal Audio and HHB Canada will sweeten the deal by sending you a cheque for \$200! Whether you view this as getting a boutique, hand-wired channel strip, or as putting the sound of 40 years of classic records into your studio, one thing is certain: you'll get a great deal on the 6176.

Simply purchase a new 6176 Vintage Channel Strip from an authorized **Canadian UA dealer** by December 31st 2009, then fill-out this form. Next, mail it to HHB along with a copy of your receipt, and we'll send you a cheque for \$200.

Business name: \_\_\_\_\_

Name: \_\_\_\_\_

Address: \_\_\_\_\_
